EICAA

ENTREPRENEURIAL AND INTRAPRENEURIAL
COMPETENCES ASSESSMENT ALLIANCE

OUR VISION AND MISSION

EICAA seeks to assess, analyse, and develop entrepreneurial competences among university students and staff as well as among employees of the corporate sector. By building a digital platform, university and industry stakeholders will be enabled to assess and analyse the level of entrepreneurial competence within their organisation. Furthermore, suitable education and training interventions will be provided to accurately address specific entrepreneurial competence development needs.

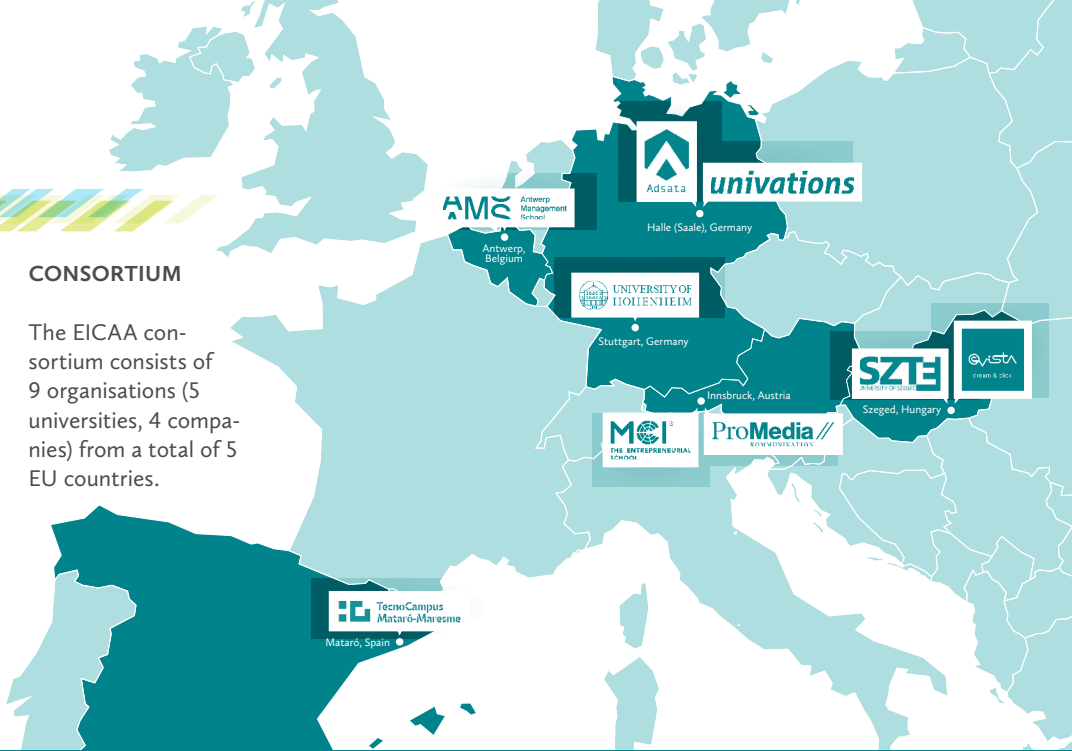

The project is an Erasmus+ funded Knowledge Alliance with a duration of 3 years and subject to the supervision of the EACEA.

CONSORTIUM

The EICAA consortium consists of 9 organisations (5 universities, 4 companies) from a total of 5 EU countries.

HOW TO JOIN EICAA?

For our pilot round, we look forward to your participation and support. Get in touch with us by writing an e-mail to Florian Bratzke (bratzke@univations.de), the coordinator of EICAA, or by using the **contact field on our website!**

If you want to get more detailed information on EICAA, have a look at the EICAA Electronic Magazine on our website and find the latest news and project updates on our social media channels.
